INVITATION

On behalf of the University of Melbourne and Austin Hospital, we warmly invite you to be a part of the 11th Annual Urology in General Practice Symposium—UroGP 2020.

UroGP is a full day forum which explores complex urology health issues relevant to General Practitioners (GPs), and also touches on the latest solutions available to patients and innovative new developments in the urology field. This symposium represents Australia's leading forum on urological health specifically for GPs, and was started in 2010 due to the vital need for GPs to further their understanding of urological issues, symptoms and treatments for patients young and old.

UroGP also communicates the latest cost effective treatments available for urological issues via the Pharmaceutical Benefits Scheme (PBS).

Over 450 participants are expected to attend UroGP 2020, presenting a valuable marketing opportunity for organisations interested in reaching and educating GPs focused on quality diagnosis, care and treatment of patients with urology issues. A range of partnership packages and display opportunities are available for this one-day forum, to help your organisation reach this valuable market.
